### COMMITMENT TO DIVERSITY AND INCLUSIVITY

Our club is committed to providing opportunities from the coaching and management level, volunteer level and down to the individual player level for members of the community from any ethnic background, gender, sexual orientation, religious group or those with a physical impairment or disability.

Our leadership structure is comprised of men, women and non-binary members from within our local community, representing all aspects (socially, culturally, ability) of the diverse make-up of the club as a whole. Managers, coaches and volunteers are voted-in or selected based on merit, held qualifications, tolerance and enthusiasm.

While all members are encouraged to take part equally, there is extra encouragement and support for those in our club who are historically underrepresented to take up leadership roles.
